

**NEW LINE-UP**

**New Line-up of Green/Blue Beam Types of Fiber Optic Amplifiers**

**BF5 Series**

- \* High resolution of 1/10,000 & Fast sensing speed of 20,000 times/s
- \* 3 beam types (red, blue & green) to widen user applications
- .. more

**BEST SELLING PRODUCTS**

**Dielectric Strength 4,000VAC - Highly Reliable SSR**

**SR1/SRPH1/SRC1/SRS1/SRH1**

- \* SR1 - Detachable Heatsink Type
- \* SRPH1 - Analog Input Type
- \* SRC1 - Slim Detachable Heatsink Type
- \* SRS1 - Socket Type
- \* SRH1 - Heatsink Integrated Type
- .. more

**High Precision PID Temperature Controllers**

**TK Series**

- \* Parameter masking & User parameter grouping functions
- \* 3 Alarm outputs & 2 Transmission outputs
- \* Features 50ms sampling speed & 0.3% display accuracy
- .. more

**Economical Dual Display Type PID Temperature Controllers**

**TCN Series**

- \* PID control algorithm & 100ms sampling speed
- \* Relay output & SSRP output embodied together
- \* 2 Alarm outputs available
- .. more

## Control Switches / Pilot Lamps / Buzzers

### > S/L/B Series

- \* Superior durability and easy handling
- \* Autonics control switches - Touch the difference at your fingertips
- .. [more](#)
